E.S.PKU–Circular No 2/2005

Dear Friends!

1. Annual E.S.PKU Conference 2005 in Italy

As the board just had it's spring-meeting at the venue of the 2005 Annual E.S.PKU Conference, we all kindly invite you to this "Big Family Meeting" from October 28th to 30th 2005 now.

The Hotel is a really nice one, situated very harmonic in the hills above Costa Smeralda, only a few km's away from Olbia Airport. It offers a lot of possibilities to sport or socialise. And the meeting programme will be as interesting as it used to be.

The costs* for participation are estimated as follows:

*subject to change!

Adults:	350,00 €
Children 0-5 years:	70,00 €
Children 6-11 years:	100,00 €
PKU's up to 14 years:	free

Single-Room-Supplementation: 80,00 €

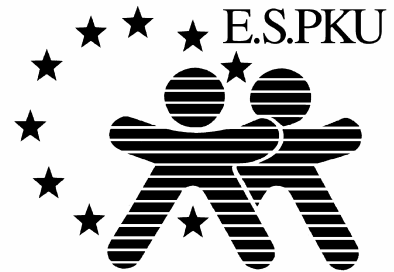

The prices include participation in all meetings, accommodation full board for 2 nights, one additional lunch and participation in all social programmes organised by the hosting APMMC.

Extra-Nights (half board in a double-bed-room) will be charged with 96,00 €.

It is obviously that the prices are relatively high, but corresponding to the level of the hotel. Therefore it is of your interest to book your flights to Olbia as soon as possible, because: The later you book, the more expensive the flights will be.

The final programme and the obligatory, binding registration form you will receive as usual in summer 2005

2.) The next General Meeting of E.S.PKU

... will take place as a part of the 2005 Annual E.S.PKU Conference in Olbia, Sardegna, Italy on October 28th 2005, most likely during the morning.

As we will finish another term of office of the Executive Board, we already now announce that there will be again elections of the Executive Board. Candidates are welcome!

3.) The Aspartame-Topic

As announced in the last circular, the International Sweeteneres Association (ISA) offered us negotiations on a labelling of foodstuffs that are useful for us both.

We had the first meeting with the chairman of ISA in Olbia last weekend, and it was very open-minded and constructive. We will now look for a new quantitative labelling of available, regular foodstuffs, which we will try to bring to the European Comission in a common request together with ISA. As long as we will not succeed, the actual labelling of Aspartame as a source of Phenylalanine will stay unchanged.

4.) Our website

Thanks to Mr. Edwin Feldmann, who is our webmaster, our website is full of interesting topics and information. Please make use of it. Especially the Forum and Chatroom are suitable for communication between PKU's from all over Europe. Did you already find a partner for travelling to other countries in our travelling database? Yours
